

Neuro-Otological & Equilibrimetric Society of India

MESSAGE FROM THE CHAIRPERSON

All India Institute of Medical Sciences, Jodhpur is organizing the Annual Neuro-Otological & Equilibrimetric Society of India Conference from 01-04 Feb 2018.

In today's day and age a revolution is in progress across all fields of medicine. The whirlwind pace of this progress is so extraordinarily swift in the field of Otolaryngology in general and Neuro-Otology in particular, that only the most fleet-footed amongst us can hope to keep up.

Being a tertiary care teaching hospital located at the flux point of a uniquely hostile dry desert environment, we at this center, are serendipitously placed in the management of patients with vestibular and other neuro-otological disorders. Systems for the same have been developed and honed over our years of exposure to this scenario.

We are, therefore, bringing before you a hand-picked set of discussions and talks, conducted by a plethora of extraordinarily gifted Neuro-otologists and I am sure all participants will benefit immensely from this academic cornucopia.
